Fullstack Developer

EXPERIENCE

Fullstack Developer Intern

Epsor [!\[\]\(c3d993ca47bfe2a953c700506ce31fa0_img.jpg\)](#)

April 2022 - August 2022 - 5 months, Paris 2e

Developed and maintained Epsor app based on CQRS microservice architecture. Wrote frontend and backend code using React and Apollo GraphQL. Participated in agile rituals: stand-ups, code review, retro, grooming, etc. Drove technical dept activities.

Freelance Frontend Developer

Okarito [!\[\]\(17413706fd4997a1a4bdf85c6864eee1_img.jpg\)](#)

Septembre 2021 - February 2022 - 6 months, Paris 12e

Directly collaborate with Product team and agile developers to prototype, design and deliver Okarito app using NuxtJs. Develop the app following best practices, doing code review, writing docs, Storybook, Swagger and continuously improving and deploying it using Github Actions.

Study and writing of software requirements specifications

RATP [!\[\]\(4b7a79268f6ba26c1471d4232fffa85a_img.jpg\)](#)

May 2020 - July 2020 - 3 months, Fontenay-sous-Bois

Analyzed the RATP environment and network operation. Collected needs from different actors. Created mockups using Figma. Developed the functional specifications of the future RATP crisis management software.

PROJECTS

Fullstack Development

Ducktape [!\[\]\(56549452e01ca28bdf2500ced9653143_img.jpg\)](#)

November 2022

Ducktape is an application that allows you to share 2s videos with your friends. These videos are readable in a feed. At the end of each day, the videos are deleted.

EDUCATION

Computer Science Major
